1 True Rocky Mountain Blue Delphinium

As a rock garden plant there is nothing better. Height not over 18 inches.

1 Colorado Silver Spruce

The handsomest tree on the Rocky Mountain trail. 3 year old. Pot grown.

1 Douglas Fir

This is the Pseudotsuga variety of Colorado. Recommended for its hardiness and great beauty. 3 year old. Pot grown.

1 Rocky Mountain Blue Long Spurred Columbine

Lovely blue. Flowers with long spurs. No rock garden is complete without this beautiful plant. Blooming size.

2 Mountain Viola Pansy Plants

This is a hardy Mette Pansy. They begin to flower in February. Even beneath the snow. Are in full bloom the first part of March at a period when all other sorts of Pansies begin to bud only. And continue to flower all summer. The flowers are very large and fragrant.

1 Rocky Mountain Shasta Daisy

Very early. Free flowering. White flowers.

1 Kinnikinic (a Red Berried Evergreen)

Very dwarf. Runs over the ground not over 6 inches high. Pretty pink flowers. This is a native of the high elevations of the Rocky Mountains.

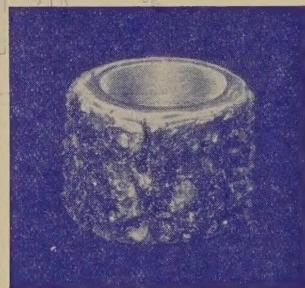

*The above listed 10 plants are PREPAID to you for
only \$1.00*

*(We have received many letters from parties that have received
this collection, writing us saying they do not see how we can send
so many large plants for so little money, prepaid.)*

*Our Stock is very hardy as they are grown up in the mountains, 8,000 feet above sea level, which is
the coldest place in the United States in the winter.*
